SUMMARY

Software Engineering graduate (2025) with a 3.61 CGPA, focused on prompt engineering, AI tools, and practical system development. Hands-on experience in web development, Python, IT support, and teaching—I learn quickly by exploring and improving real-world code to build automated, scalable AI solutions. Seeking opportunities to contribute to AI, automation, and software engineering teams.

EXPERIENCE

Software Implementation Engineer

07/2026 - Present

Movelink Sdn Bhd ↗

- Performed SQL data checking and troubleshooting
- Trained clients and maintenance teams on software usage
- Managed the AHMS system to ensure smooth and reliable operations.

MANAGEMENT TRAINEE

08/2025 - 02/2026

Taste Paradise ↗

- Assisted in daily restaurant operations, ensuring smooth service flow and timely food delivery to customers.
- Maintained service quality by following hygiene, safety, and standard operating procedures.
- Handled customer inquiries and feedback, helping resolve issues to improve dining experience.
- Supported team members during peak hours, improving service efficiency and teamwork.
- Assisted in training new staff on service procedures and restaurant standards.

FREELANCE CODING INSTRUCTOR

10/2024 - 01/2025

Edunode ↗

- Taught children the basics of coding by teaching them to create simple games using Scratch
- Designed fun and educational projects that helped students build simple games while learning core coding concepts such as loops, conditionals, and event handling.
- Developed tailored coding lessons that improved student engagement and facilitated clear understanding of programming concepts

IT & E-COMMERCE ADMIN (Intern)

10/2024 - 01/2025

V-Circle Network ↗

- Managed e-commerce platform configurations to ensure seamless transaction processing and improve overall customer purchasing experience.
- Implemented IT support protocols that reduced system downtime and enhanced operational reliability across digital sales channels.
- Coordinated cross-functional teams to streamline inventory data synchronization, increasing accuracy and preventing stock discrepancies.
- Optimized website content updates and product listings to boost search visibility and drive higher user engagement.

IT SUPPORT (Intern)

11/2022 - 01/2023

Tinggi Maju Plantation Sdn Bhd

- Assisted customers with technical issues, delivering timely troubleshooting and support
- Managed data and reporting responsibilities with Excel to maximize operating efficiency
- Installed, configured, and maintained computer systems and networks, ensuring minimal downtime for users

CASHIER

01/2020 - 03/2020

The Store

- Processed customer transactions accurately to ensure smooth checkout experiences and maintain register accountability.
- Resolved payment discrepancies promptly to uphold transaction integrity and enhance customer trust.
- Maintained organized checkout areas to promote operational efficiency and improve customer flow.
- Communicated product information clearly to assist customers with purchase decisions and increase satisfaction.
- Handled cash, credit, and electronic payments securely to minimize errors and prevent financial loss.

EDUCATION

AI & Robotics

06/2026 - 10/2026

ASEM - Advanced Semiconductor Academy of Malaysia

SOFTWARE ENGINEERING

05/2023 - 05/2025

New Era University College - BACHELOR DEGREE

COMPUTER SCIENCE

05/2021 - 05/2023

New Era University College - DIPLOMA

SPM

01/2015 - 12/2019

SMJK TANAH PUTEH - SECONDARY SCHOOL

CERTIFICATES

AI APPRECIATE ↗

AI AWARE ↗
